UNE AVANCE DANS L'AIR DU TEMPS*
*A STEP FORWARD INTO THE AIR OF OUR TIME

New in 2009

SYSTEMS with Air to Water heat pumps Hybrid solution, 1 Heating floor zone and 1 Low Temperature Radiators zone p. 31

Medium Temperature heat pumps (PHRT)
MCED 8/10/12 auxiliary electrical heating module (3 new models)
Domestic hot water preparation kit
Many accessories

SYSTEMS with Air to Water heat pumps Boiler back-up solution p. 26

Not only with PHRT heat pumps
But also with PHTJ and PHT High Temperature heat pumps (4 models)

SYSTEMS with Air to Water heat pumps System available with 2 heat pumps in parallel

For solutions to:

- Boiler back-up
- Boiler substitution
- 1 Radiator zone

With:

- Heat pumps PHTJ 14/19, PHT 13/16, PHRT 7/9/12/16 (8 models)
- Auxiliary electrical heating module for BI-PAC: MCEDB 12 (1 Radiators / Boiler substitution zone)

SYSTEMS with Air to Air heat pumps MINISET and MULTISPLIT DC Inverter, VRF systems p. 60

3 new indoor wall-mounted units: MPAFM 78/98/128 R5I

PHTJ 14 High Temperature Air to Water heat pump three-phase p. 34

New three-phase model
Max water outlet temperature: 65°C
The range is composed of PHTJ 14 single-phase, PHTJ 14 three-phase, PHTJ 19 three-phase

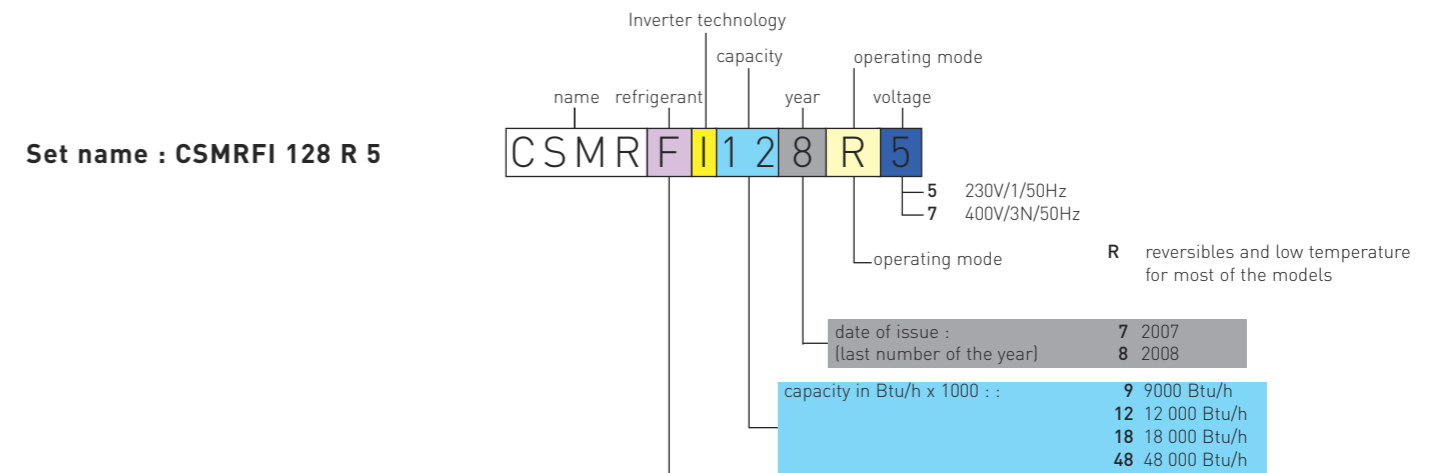

ON/OFF single split cooling units Low outside temperature p. 146

4 new floor/ceiling units:
SKPF 128 single-phase/188 single-phase
and three phase/228 L three phase

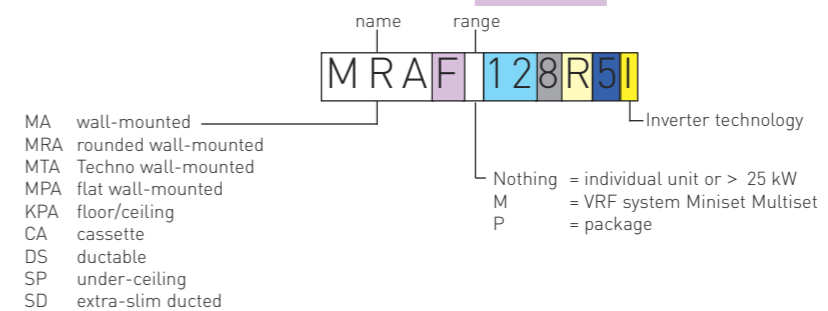

Unit names

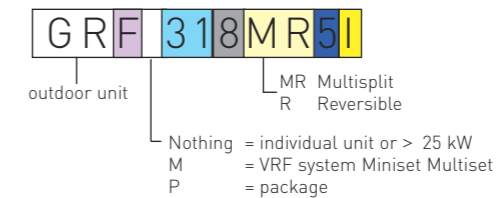

DIRECT EXPANSION - DC INVERTER

Indoor unit

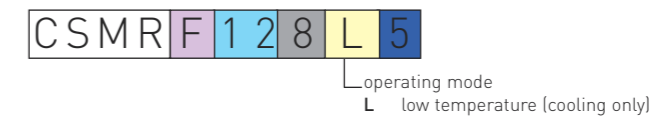

Outdoor unit: GRF 318 MR5I

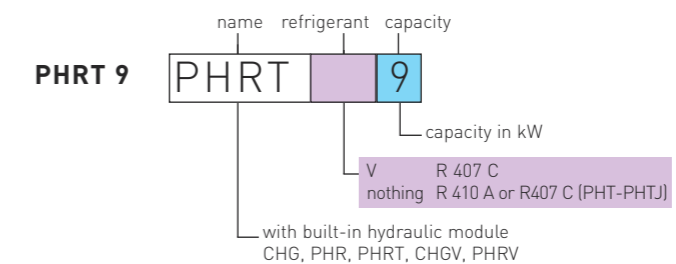

DIRECT EXPANSION - MONOSPLITS ON/OFF

Set name: CSMRF 128 L 5

WATER - WATER CHILLERS / HEAT PUMPS

WATER - TERMINAL UNITS
